

“The best time to plant a tree is 20 years ago,  
the second best time is now”

# TREE CERTIFICATE

This certifies that 4030 trees will be planted in India

by WeForest for **YVES LEMARCHAND**.

Trees are one of the most effective solutions to halt global warming due to the  
carbon they remove from the atmosphere.

Trees also contribute greatly to balancing the water cycle, improving soil fertility  
and improving quality of life for the poorest communities.

**Congratulations for Making Earth Cooler!**

May 2016

**Marie-Noëlle Keijzer,**  
*WeForest* CEO

WeForest is an international non-profit organization established as a Belgian ASBL/VZW (#0826.151.968)
